Phone: (713) 850-4236

Fax: (713) 850-4211

Profile:

Bill Davidson's practice focuses on the litigation/arbitration and transactional aspects of construction law. He represents primarily private owners, engineers, general contractors, subcontractors and suppliers on substantial construction projects, including power plants, chemical plants, gas processing plants, cryogenic plants, sports facilities, commercial properties, light rail, and the fabrication of production modules for the upstream oil and gas industry. His experience includes the prosecution and defense of a variety of construction-related issues, including matters relating to mechanic's liens, performance and payment bonds, differing site conditions, breach of contract, breach of warranty, and claims relating to project delay, compression, disruption and acceleration. His transactional experience includes the drafting and review of construction contracts, primarily for industrial and petrochemical contractors. Bill is admitted to practice before the U.S. Court of Appeals for the Fifth Circuit.
